

## Flat Top

**30 mins**

**1 km Return**

**Moderate track**

**↑ 46m**

3

The walk to the summit of Flat Top is a very short climb. A treat awaits at the summit, with a near-360 degree view of the surrounding valleys, including the Grose Valley. There are also great views to other features including Mt Hay and Lockley Pylon. The walk and mountain itself may be short, but the views are spectacular and well worth exploring.

Blue Mountains National Park

### **Are you ready to have fun?**

Please ensure you and your group are well prepared and equipped for all possible hazards and delays. Check park closures, weather information and Fire Danger Rating before setting out. Optional side trips and alternate routes noted are not included in this walks overall grade, length or time estimate. Please allow extra time for resting and exploring areas of interest. The authors, staff and owners of wildwalks take care in preparing this information but will not accept responsibility for any inconvenience, loss or injury you may experience. Please take care, have fun - Happy Walking.

**Getting there** Traveling by car is the only practical way to get to Flat Top car park (gps: -33.6519, 150.3696). Car: There is free parking available.

This is a return, so you will finish back at the start.

Find up to date and more information including; travel directions, weather, park closures and walker feedback at <http://wild.tl/ft>

### **0 | Flat Top car park**

*(510 m 12 mins)* From the car park, this walk crosses the road to the opening in the thick wire fence, then follows the 'Flat Top' sign up the sandy track. After approximately 50m, the track passes an alternate exit to the management trail (on the left). The track continues up the hill, tending right up a steeper, rockier gradient. The track continues up to three metal ruts on the left of a rocky outcrop. The track heads up to the flat of the plateau, leading along an overgrown management trail to an obvious trig station.
